https://archive.org/details/freshmanregister1974univ

Legend has it, that Metawampe will drop his spear when the first virgin graduates from U. MASS.

Welcome to our University, one of the best and most respected universities in the country.

All of us are pleased that you have joined our campus community. We hope to see you often.

Throughout your orientation and during the first weeks of classes you have been properly introduced to the academic side of the campus. It is our purpose to show you the extracurricular end of campus life. Indeed, many of the out of class activities are as important as classes themselves and are an integral part of your university education.

In this Freshman Register we have compiled a great deal of information about the campus for your permanent reference. One of the most important sections of the Register, however, is the pictorial directory of new students. During your college years it will help you to learn names and faces and will assist you in establishing friendships. It will enable upperclassmen and campus organizations to become acquainted with you.

We're sure you'll find the Register useful. If you have any comments on the book we will be anxious to hear from you.

Welcome again to our campus community.

UNIVERSITY OF MASSACHUSETTS
AMHERST · BOSTON · WORCESTER

OFFICE OF THE CHANCELLOR
WHITMORE ADMINISTRATION BUILDING
AMHERST, MASSACHUSETTS 01002

Every year the University is fortunate in having its pool of talent and enthusiasm replenished by its new freshman class. As such, the entire University community and I are pleased with this publication, since it provides us with an opportunity to acquaint ourselves with the incoming class.

As we look forward to this academic year, it is with the anticipation that much of the year's activity in both the campus academic and social arenas will reflect the fresh input of our new community members. In fact, University history has taught us that this freshman class, like its predecessors, is certain to make contributions to this academic environment which will have a positive, long-range impact on the overall educational process of the University.

The entire University community is looking forward to interaction with our freshman class and the associated excitement and educational challenge it offers for the new year. I look forward to meeting many of the new students personally, and providing whatever assistance I can to make your experience at the University fruitful and challenging.

HANDICAPPED STUDENTS

The Office of Handicapped Student Affairs (HSA) has established a number of resources which will be of interest to persons with physical disabilities. During the 1974-75 academic year there should also be increased opportunity for volunteer and paid jobs for persons wishing to become involved in the program.

Programs

For the Blind:

1. Reader's list: names of persons who are willing to read to visually impaired persons.

2. Closed Circuit TV (low vision aid): located in the University Library. The CCTV magnifies normal print up to 45 times.

3. Massachusetts Commission for the Blind: Residents of Massachusetts who are legally blind may apply for counseling and financial assistance through this agency.

4. Orientation to grounds and/or particular buildings can be arranged through HSA.

5. VIP's (Visually Impaired Persons): a group of college students from the Pioneer Valley and Springfield area. The group meets to discuss mutual problems and group activities.

6. Recreation: The UMass Outing Club has expressed interest in providing outdoor experiences for visually impaired students. BLIND (Blind Living In New Dimensions) is an organization in Franklin County which has developed a downhill skiing program. Other winter activities are available. (Note: contact HSA to make arrangements).

For the Deaf:

1. Interpretation for classroom and regular campus services by trained interpreters is available.

2. Tutoring services.

3. Classroom notes: available in duplicate or triplicate.

4. Personal Counseling and information on financial assistance: available in conjunction with the Massachusetts Rehabilitation Commission.

5. Speech Therapy and Audiological Testing: available at the Communications Disorders Clinic.

For the Orthopedically-Neurologically Disabled:

1. **Guide to Campus for Mobility Impaired:** a description of functional accessibility of the campus, available through HSA.

2. Housing information: modifications of University Housing and suggestions and information about off-campus housing with handicap access are available through HSA.

3. Transportation: two modified vans should be available in the Fall, to provide door-to-door on campus transportation for those students who request it. Irregular off-campus transportation needs will be met on a selective basis.

4. Personal Assistants or Aides: HSA will assist persons in need of such support in finding appropriate personnel.

5. Handicapped students are entitled to preferential scheduling to insure assignment to classes in accessible buildings.

6. Registration: arrangements can be made to bypass registration procedures which take place in inaccessible locations.

7. Recreation: for those persons interested in wheelchair sports, HSA is a member of the National Wheelchair Athletic Association. The National Inconvenienced Sportsman's Association has a chapter at Haystack Mt. in Vermont. NISA has an extensive downhill ski program, with particular emphasis on Tri-track skiing. (Note: students wishing to enroll in Physical Education courses should not hesitate to contact HSA).

General Information:

1. Pre and Post admission counseling is provided to all physically disabled persons who request it.

2. HSA serves as liason with the Massachusetts Commission for the Blind, the Massachusetts Rehabilitation Commission, and Veteran's Affairs. A full-time Massachusetts Rehabilitation counselor will be available on campus beginning in September.

3. Alpha Phi Omega is hoping to initiate a taping service to benefit the visually impaired student.

Alpha Phi Omega

The National Service Fraternity

FRIENDSHIP—LEADERSHIP—SERVICE

The men of Alpha Phi Omega would like to extend to you their congratulations on your acceptance to the University, and to wish you well during your academic career here. We are looking forward to meeting and working with many of you.

As many of you may already know, Alpha Phi Omega is the world's largest fraternity, having over six hundred chapters throughout the United States and Puerto Rico.

Alpha Omega was founded for the purpose of providing service to our fellow man. Since its founding in 1925, APO members have contributed of themselves in thousands of service projects. Here at the University of Massachusetts, our chapter has a varied schedule of projects to which we devote our time each year. These include the Red Cross Blood Drive, support of the Peace Corps campus recruitment, removal of architectural barriers to the handicapped, support of the "A Better Chance" program, APO's Ride Board, and work for many of the national charities. Also, each year we put on

our famous mock gambling casino "Las Vegas Night", from which we had to turn away over a thousand people last year due to overcrowding.

Throughout the semester, of course, we have many social activities which include parties and picnics with the women of our sister sorority, Gamma Sigma Sigma, and our annual banquet. We are also active in the campus intramural program.

Relaxing after a long, hard summer-get-together on Thompson Lake, near Oxford, Maine.

As we are a service fraternity, and a tax exempt organization, thus having no house, our members live in the dormitories and off campus. We feel that this gives all our members the independence and privacy so lacking in the traditional "Fraternity House."

We feel that these reasons make Alpha Phi Omega a truly different and better kind of fraternity. If you are interested in taking a look at our fraternity, we will be having several "smokers" throughout the first few weeks of school. Watch for our posters and ads in the Daily Collegian, if you should miss them, do not hesitate to call us at 545-2068, or leave a message in our mail box, RSO #315, Student Union Building.

Some of the over $5,000 raised during an annual joint project with the brothers of the UConn chapter of APO.

Brothers hard at work preparing for the annual Amherst Fair.

GAMMA SIGMA SIGMA

The National Service Sorority

In 1953, representatives from eight universities gathered at Beekman Towers in Philadelphia to form a sorority based on the ideals of service to campus, community, and the world. The result of that meeting is the national service sorority Gamma Sigma Sigma.

The primary purpose of Gamma Sigma Sigma is "To unite college and university women in the spirit of service to humanity." In the past twenty years, Gamma Sig has grown from these original eight chapters to well over 120 undergraduate chapters, colonies and groups, as well as 35 alumnae chapters, colonies and groups. In the past two years, Gamma Sig sisters have united themselves in over 250,000 hours of volunteer service.

The membership of Gamma Sigma Sigma is limited only by the number of women willing to help other people. The only requirement is that **you** are willing to volunteer your time to bettering someone else's life.

University of Massachusetts chapter of Gamma Sig, though only 10 years old, has been consistently one of the outstanding chapters

nationally, a fact in which our sisters take great pride. In the past year alone, our 26 actives ran up a total of over 3,000 hours in the Amherst area, and an average of 59 hours per sister! That seems like a lot of time away from school work, but the national requirement for sisters is only 15 hours; for pledges, only 20 hours. And the hours pile up fast.

Some of the service projects undertaken by Alpha Theta (that's the UMass chapter's name) include used book sales twice a year, blood drives twice a year—these are the largest drives in Western Massachusetts with last year's total at almost 3,000 pints, work with Belchertown State School, local nursing homes, ushering for University Theater, Las Vegas Night with Alpha Phi Omega—the national service fraternity, Medic Alert drive, architectural barrier survey for the Office of Handicapped Students' Affairs and reading to the blind. There are also options open for individual service, which come in a variety of projects limited only by your imagination.

On the lighter side, GSS is all not work. There are social events held with APO, intramurals, sisterhood socials, and even social events held with other chapters.

UMass delegates at the last national convention, celebrating their tenth anniversary as a chapter.

Some of our New England sisters at the last national convention in Houston, Texas.

Since Gamma Sigma Sigma **is** a sorority, there comes the question of HOW MUCH? The answer may surprise you: $15 per year. This covers necessary expenses by national GSS, the printing, mailing and secretarial, and $5 of every sister's dues goes into a travel pool to send chapter delegates to the national convention held every two years at a different chapter.

Alpha Theta has no house, as do social sororities, but this lets a sister's environment be as broad as she wishes. Gamma Sig is an interest, a pasttime so to speak. A sister is not restricted in her activities simply because she belongs to Gamma Sigma Sigma.

We hope you are interested, because we are interested in you. If you wish more information, please contact Sally Butler at RSO 314 in the Student Union, or drop by our office in Room 304 in the Union. If you prefer, just come by to chat. We have something to offer everyone!

***Homecoming, watch for details of Alpha Phi Omega's "Las Vegas Night"**

LIFE WITH A ROOMMATE

A roommate can be an asset. Most people enjoy the company of others and desire the opportunity to share opinions and interests, but sharing a room with another individual can, at times, lead to minor problems, upsetting the enjoyment normally found in dormitory living.

One should remember that roommates do not always have to be friends. It is not always necessary to have common interests or to share in a twenty-four hour a day situation. However, one of the most rewarding experiences while in college is getting to know different kinds of people and learning to tolerate their idiosyncrasies. Accepting of others can be the most valuable part of your college education.

The first obligation to your roommate is to meet him cordially and make a reasonable attempt to create a lasting relationship with him. A few hints in this direction may help you.

1. Unlike owls, many human beings sleep at night. However, study, at times, can break this normal habit. If this is necessary one should make arrangements to study somewhere else so as not to cause undue tension in the room.

2. Occasionally, points of contention may arise during study periods, whether they be friends dropping in, loud stereos, or typing while someone else is reading. If any or all of these things are occurring, it may be necessary to have a frank discussion with your roommate.

3. Being roommates doesn't signal the start of a free-for-all battle to see who can use more of the other's belongings. It may be advantageous to declare some items community property and keep some for your own use, but don't push the subject until it is of utmost necessity, and then discuss it. In respect to your roommate and his belongings (as well as your own), it is your obligation to lock the door if you are the last to leave.

4. Although all public areas in the dorms are cleaned daily by University custodians, room cleanliness and maintenance of healthful living conditions in each are the responsibility of the residents of that room. Evaluate your own habits before complaining about others'. Make it a point of being the one who wishes that "everybody else were clean."

5. Conversation with your roommate is an important part of residence hall life, but remember everything in moderation. Don't become such a conversationalist that you are constantly interrupting your roommate while he is studying. You should endeavor to remain quiet while your roommate is studying.

Remember that your roommate is an individual and his likes and dislikes should be respected, just as yours. Be careful not to smoke him out of the room, freeze him out with an open window, crowd him out with your friends, or drive him out by typing all day and night. Remember, also, that your roommate is an individual in his beliefs and opinions. Discussion is valuable, but don't try to argue his opinions down just so he'll conform to yours. All of these aforementioned quirks are minor, but go a long way toward making residence hall life enjoyable.

What would you do if your roommate seems unaware of these irritations? The answer is not to retaliate by being meaner than he is. This is a time when polite honesty pays off. Discuss the problem with your roommate as soon as possible, and if that doesn't work then go to your counselor or Head of Residence. You owe your roommate the courtesy of speaking to him first.

Finally, the roommate situation, as with all human relations, calls for consideration, civility and good will.

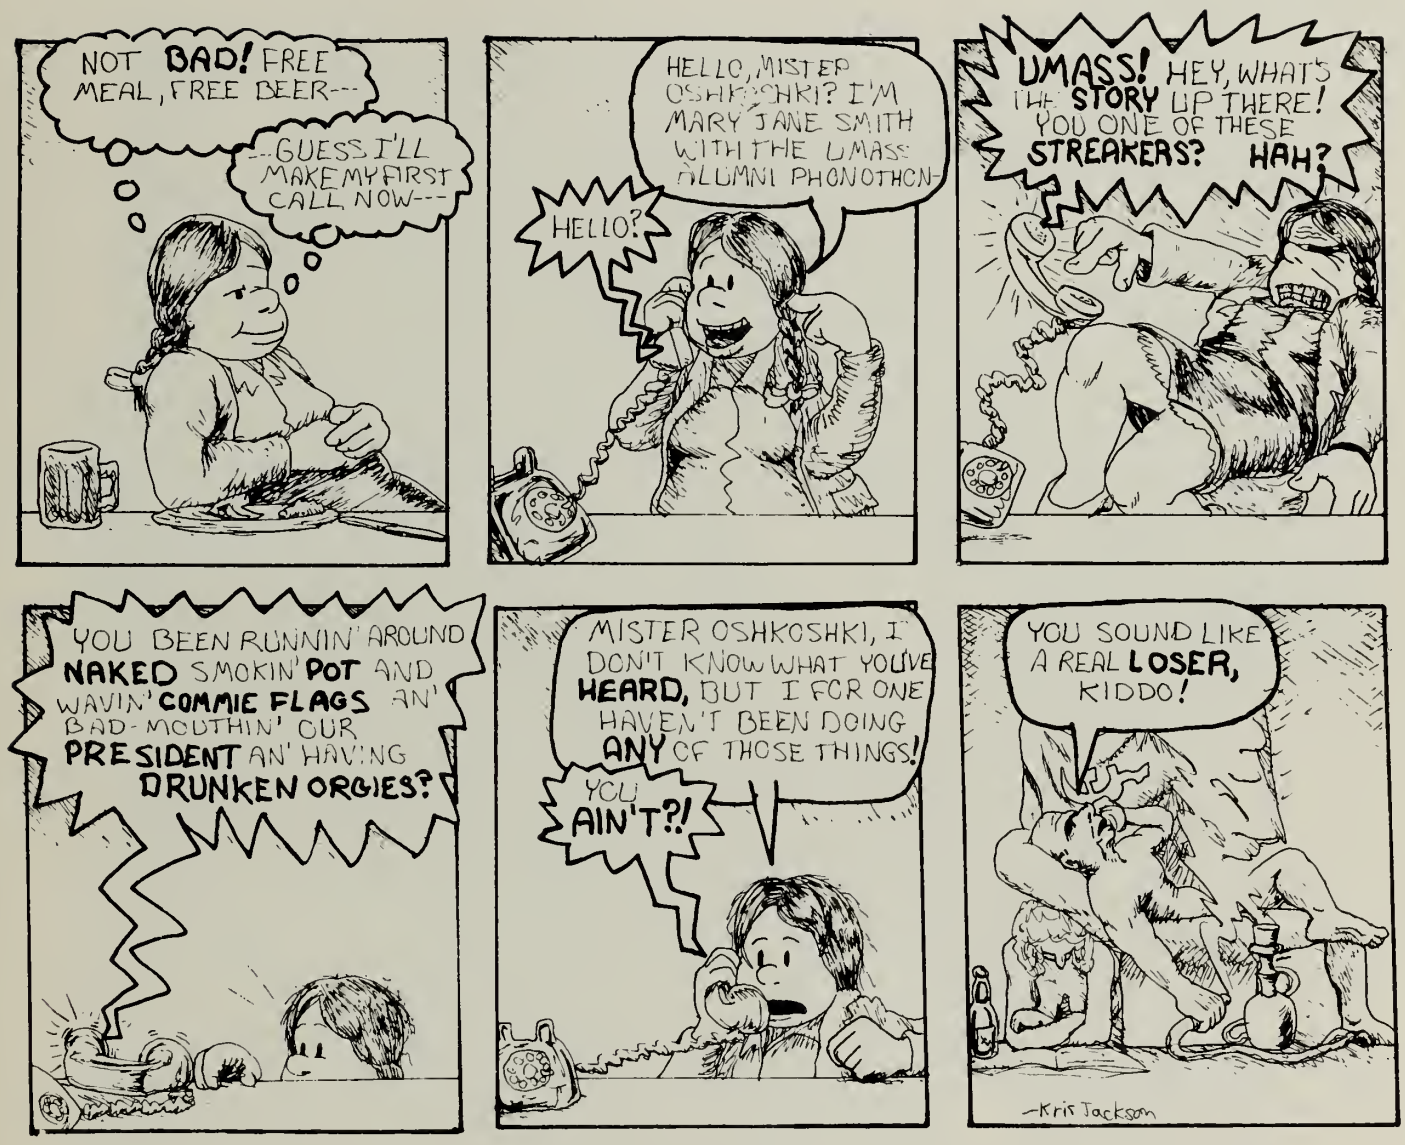
QTV FRATERNITY



PHONOTHON is FUN! During March and April come to Memorial Hall at 6:00PM for a free meal and beer compliments of the Alumni Office. Then we'll call alumni for pledges for Scholarships, BDIC, Honors, Outreach, Everywoman's Center, etc.

Watch for announcements in the Collegian during February!!

COME and bring all your friends.

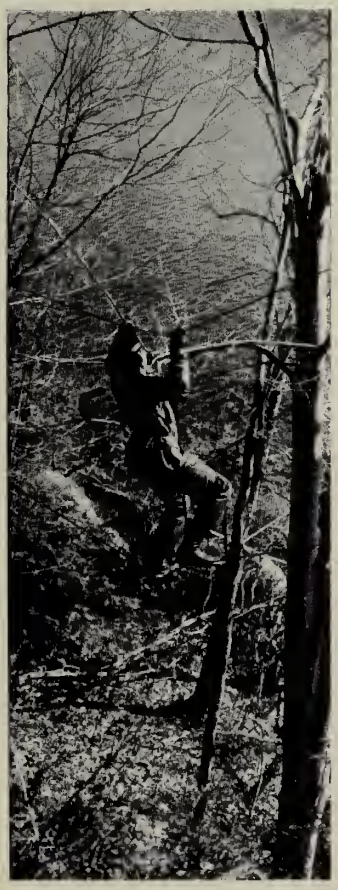
THE FRATERNITIES AND SORORITIES OF THE UNIVERSITY OF MASSACHUSETTS WELCOME YOU TO CAMPUS

Fraternities and sororities will be taking new members during the month of September. Any student interested in becoming a member should attend the Greek Area "Rush Orientation" which will be held on Sunday evening, September 8th, at 7:30 P.M. in Room 101 of the Campus Center. Anyone interested in obtaining additional information about the Greek System is invited to come to the Greek Affairs Office at 236 Whitmore Hall or call 545-2711.

ROTC Instruction gives you a head start on a career in or out of the service. We'd like you to join us—if you can meet the challenge. Here are some of the things we're offering:

- Accredited courses
- Adventure Training
- Scholarships
- Flight training
  and much more.

See us at the Department of Military Science at UMass (Bldg. #79 or tel. 545-2321).



ROTC instruction creates many opportunities for the individual in his military career that otherwise might not be available to him. But perhaps the most important benefit of all comes from the manner in which ROTC instruction broadens one's comprehension, sharpens one's sense of responsibility and develops a maturity of judgment that will be a source of strength and confidence throughout one's life. My own ROTC instruction proved invaluable, and I am sure this holds true for other ROTC graduates as well.

Edward W. Brooke
United States Senator

Participation in this publication was offered to Freshman and transfer students whose name appeared in the files of the University Data Processing Center on July 15, 1974.
